

**Daily Update**  
May 19

**Repair Work**

Devil's Slide (post mile 39.14)

- Operations to drill and install 20 feet long rock dowels continued to-day.

Preparing a rig for another drilling session.

- Excavation work for one of the whaler walls is complete. Construction started on one of the two concrete bracing walls above the road.

Installing rebar for one of the "whaler" walls.

**Traffic – Park and Ride**

- Sign installation for two Park and Ride lots began to-day and should be complete this weekend. Information is available at [511.org](http://511.org) about incentives for organizing ridesharing and van pools.
